WEATHER OF CONCERN

Weather of Concern

Northern California:

- Localized heavy rainfall is expected across portions of northeast California, the northern Sierra, and northwest Nevada today with isolated thunderstorms. Showers will linger into Sunday with some afternoon thunderstorms before drier, warmer weather returns next week.

Central California

- Showers and thunderstorms are expected today across the entire Central California Interior. Showers will continue throughout the region on Mother's Day with isolated thunderstorms mainly over the Sierra Nevada.

Southern California

- An unseasonably moist and unstable air mass will bring the potential for afternoon and evening showers and thunderstorms to the Antelope and Cuyama Valleys and all the mountain areas from Los Angeles to Santa Barbara counties. Any thunderstorms that develop will bring the potential for periods of heavy rain which could cause flash flooding to occur due to very weak winds aloft. Thunderstorms may also contain dangerous cloud-to-ground lightning, gusty winds and small hail.
